CONTROL VALVES

AquaTive Plus® AC/DC

Actuator valve (solenoid) converting electric to hydraulic command

- Actuator valve designed for reliable operation in all irrigation systems
- Designed to operate with all types of water, including effluent water (2 mm command orifice)
- Optional NC (Normally Closed) or NO (Normally Open) valve
- Two main parts:
 - water isolated actuator
 - 3-way hydraulic control valve
- Manual override CLOSE-AUTO-OPEN
- Very low energy consumption for maximal wire distance
